

Product codes **50 lb bags**: 309, **2000 lb Totes**: 311

GLC 1012 is a twelve micron product that consistently provides the chemistry and physical characteristics you need and can rely on. It is sourced in the U.S. and produced in an ISO 9001:2015 certified facility. Packaging options include 50# bags and 2000# Super Sacks.

Typical Chemical Analysis (wt. %)		
Calcium Carbonate	CaCO₃	95
Magnesium Carbonate	MgCO₃	2.65
Aluminum Oxide	$Al_2O_3$	0.20
Iron Oxide	Fe₂O₃	0.11
Silicon Dioxide	SiO <sub>2</sub>	<1.0

Typical Physical Characteristics		
Median Particle Size	12 Micron	
Weight % Passing 325 Mesh Screen	98.7	
Brightness: Hunter Y	72	
Moisture – Max %	0.2	
Apparent Dry Bulk Density-Loose: lbs/cubic foot	54	
Apparent Dry Bulk Density-Compacted: lbs/cubic foot	78
