BENEFITS OF POULTRYCAL 300

- Consistent, coarse particle size designed for mature laying hens.
- Promotes gradual calcium availability throughout the digestive process.
- Longer gizzard retention helps support calcium needs during eggshell formation.
- High calcium carbonate content supports strong shells, productive laying performance, and skeletal health.
- Uniform sizing helps maintain consistency in feed formulation and delivery.
- Professional grade and produced in Wisconsin.
- Available in totes and bulk truckloads.
- Produced in a Safe Feed/Safe Food certified facility.
